What's Next by Role

Role-specific learning paths for engineers, IT, operations, integrators, and managers

Learning Paths

Before picking a role track, consider the AI Designer Tutor — a built-in guided Essentials path that teaches FrameworX fundamentals inside your live Designer session, applicable to every role below.

Learning (by Role) are Role-specific training paths for:

- Control Engineers
- IT Professionals
- Managers & Evaluators
- Operations & Maintenance
- System Integrators

Each path focuses on relevant features and capabilities for your professional role.

Choose Your Path

Learning Path	Primary Background	Main Focus	Key Concerns
Control Engineer	PLC / DCS / SCADA	Field devices & HMI	Reliability, real-time control
IT Professional	Databases / Networks / Security	Enterprise integration	Security, data integrity
Operations & Maintenance	Control Room /Field Service	Runtime operations	Uptime, troubleshooting
System Integrator	Project Delivery / Architecture	Complete solutions	Scalability, standards
Managers & Evaluators	Business / Technical Leadership	Platform evaluation & ROI	Value, fit, total cost

Solution Center and Designer are available in multiple languages — set your preferred language on first launch or from Solution Center settings.
