Solution Center Reference

Reference for the Solution Center hub — server connections, license, product information, and advanced solution operations.

Reference Solution Center | Tutorial | How-to Guide | Reference

---

This Reference page is being rewritten as the guide to the advanced Solution Center hub — server connections, license activation, product information, and operations beyond the Workspace.

For documentation of the Workspace area — the main solution-management UI with card, list, and table views, action buttons, and the solution list — see Solution Center Workspace Reference.
