Project Summary

Project example showing the use of **Trend's XY axis**.

Technical Information

The drawing tool has two **Trend** objects, the **TrendChart** and the **TrendChartLegacy**. The **TrendChart** is the newest one and should be used by default.

Y range - Defines the minimum and maximum values for the **Y-axis**, based on the min and max of each pen.

X range - The **X-axis** format is defined by two fields: the first line format and the second line format. This is especially useful to define label marks that require two lines of information. How example the date and time formats.
